

**To my friends in the health insurance business:**

Have you considered growing your income with the Medicare Health Plan business?

At the Senior Planning Center we provide you with support and marketing assistance to build your Medicare business. We are Maine's leading resource for seniors and our brokers. Plus, we represent all the major Medicare health plans.

There are three main reasons to provide Medicare health plans to seniors.

- 1) The Medicare market is growing rapidly with over 1,000 people a month in Maine turning 65!
- 2) You can help those who are already on Medicare save on monthly costs while enhancing their benefits. The compensation is very attractive!
- 3) A Medicare meeting can ultimately result in enrollment in ancillary insurance products such as Final Expense, Hospital Indemnity, Cancer, and Home Health... thereby enhancing your commissions.

Having been a Medicare producer for several years I can tell you these appointments are FUN and in many cases, you don't even have to ask for money.

We are growing and looking for reputable career minded brokers in your neck of the woods. Come grow with us!

The Senior Planning Center based in Maine, has been specializing in the senior market since 2012. Check out our website at [www.seniorplanningcenter.com](http://www.seniorplanningcenter.com).

To learn more about your opportunities with the Medicare business, please call me at (207) 468-5643 and see what the Senior Planning Center can do for your business!
